ELEMENTS KIHAVAH

In line with Anantara's philosophy of four natural elements, we are delighted to offer you 'Elements Kihavah', an experience club offering an exhilarating journey of adventures, on and alongside the turquoise Indian Ocean. Also known as 'Ratnakara' in the ancient Sanskrit literature and meaning 'the creator of gems', the Indian Ocean is home to a variety of marine ecosystems that vary from planktonic organisms to sharks, crustaceans and sponges. Here dolphins, turtles and mantas can be seen thriving in their natural habitat.

WATER

Explore your tranquil water element by discovering the magical underwater world that lies below. Whether you choose to scuba dive or snorkel you can rest assured that our experienced instructors, first class rental equipment, comfortable Dhonis (*Maldivian boats*) and many dive sites cater for beginner and experienced divers alike. For a more relaxed sightseeing excursion in the shallow waters or across the lagoon try a sturdy kayak ride. For expert advice visit the Bio Centre where our resident Marine Biologist will gladly guide you through your water element adventure, suggest sites to explore and share valuable marine ecosystem information.

EARTH

Do you feel the need to ground yourself on solid earth after a long flight or a day spent on the ocean? Spend the day re-enacting the adventures of Robinson Crusoe with your fellow castaway, or just an hour or so watching a breath-taking golden sunset over the ocean in total solitude and tranquillity. Let us escort you to our neighbouring islands for a delightful insight into typical islander existence and ancient crafts.

AIR

Fly free as an eagle and leave the qualms of everyday life behind as you explore the liberating and gravitydefying air element in the skies above. Our fully-rigged parasail boat, Shute Me, allows you to soar through the sky with an unforgettable bird's eye view of the lush, green tropical islands encircled by living coral reefs immersed in aglistening ocean below. If adventure is your game try mastering both the air and water elements with our cutting-edge windsurfing rigs, catamarans or kites.

FIRE

Amidst the serenity of our laidback island lifestyle we appreciate the need for speed and can ignite your fiery element with 150 horsepower of mind-blowing muscle. Climb on-board our Velocity and Impulse speedboats and feel the wind rush through your hair as you speed across the mirror-smooth Indian Ocean. If spectator sport is not your game cut your own wave skiing or wakeboarding behind this awesome power. At Anantara Kihavah Villas the world is your oyster and we will be honoured to be your guide on your adventure to discover and explore your natural elements.

ENJOY YOUR JOURNEY!

Coral adoption programme

During the development of Anantara Kihavah Villas the Elements Kihavah Team nurtured small corals and created coral gardens in various areas of the lagoon by attaching the growing corals on frames. This conservation effort proved to be very successful and the initial results can already be seen around the island. However, this is an on-going process and you are encouraged to contribute to the project by adopting a coral frame and participating in the creation and planting thereof.

Three different frame sizes are available for sponsorship:

- Small 100 USD
- Medium 200 USD
- Large 400 USD

After you have adopted a coral frame you can monitor the growing process online as the Marine Biologist uploads images every three months.
