Christmas Rock Diving

Christmas is a very special time of year, often centered around the beautifully decorated Christmas tree with presents scattered underneath and a fairy perched on top. At Mövenpick Resort Kuredhivaru Maldives this tradition continues underwater too. Join our Dive Butler certified team of dive instructors to the iconic festive dive site, Christmas Rock, so named because of its shape – a thila with a pointed top and different levels which get wider as the depth increases. The similarities do not end there – even though it is underwater, it rivals the grandest tree in terms of decorations – the amazing soft corals adorning the rock are nature's very best decorations. But what about the presents? They come in the form of stingrays and nurse sharks that can often be seen lying in the sand at the bottom of the tree!
