

HYATT REGENCY HAKONE RESORT AND SPA

Since ancient times, human beings have relied on nature  
for their daily food, clothing and shelter.

Nature has taught them much,  
sometimes even intimidating them with bare teeth.

Humans and nature: their relationship is of living itself,  
and balance with nature is what keeps our life rhythms in step...  
the Earth, its waters and the skies beat  
in time with their plant and animal inhabitants.

Borrowing from the infinite power of everything that is nature,  
Spa IZUMI believes in honing the five senses to awaken the life force  
and healing ability we each were blessed with at birth.

Surrender body, heart and soul to the music the Hakone trees play.  
Let benevolent nature hug and soothe you thoroughly.
