ALPE D'HUEZ

Hotel Presentation

SEA OF LIGHT

The diamond Daria-I Nor, "Sea of Light" in Indian language, is a diamond of 182 carats, color predominantly Pale Rose. Extracted from the same mine as the famous Koh-I Nor, it is inspired by his shine why we chose this name for our new project in Alpe d'Huez, also called "the Island of the Sun" At 1860 m altitude on the Grandes Rousses massif: The Pic Blanc culminating at 3330 m, offers a grandiose panorama, classified 3 * in the Michelin Guide. You will be able to contemplate the massif of Les Ecrins and its prestigious summits such as Le Rateau, La Meije, La Muzelle, Aiguilles d'Arves, the Chain of Belledonne and Le Mont Blanc.

The Hotel Daria-I Nor*****, opened in December 2018, is located in the heart of the resort of Alpe d'Huez. This real estate complex will offer a complete service largely inherited from our other programs: the Hotel Koh-I Nor ***** in Val Thorens ski area of Les 3 Vallées (awarded as best France's ski hotel in 2015 and 2016 at the World Ski Awards) as well as the Hotel Taj-I Mah ***** in Arc 2000 ski area of Paradiski.

Ideally located in the quartier of the Eclose, you will very quickly access to Les Bergers ski departure with the ski lift of Alpe-Express at the door of the skishop of the hotel. You will enjoy the Alpe d'Huez grand domaine ski slopes and its 250 km of slopes with its 2200m vertical drops to its summit Pic Blanc at 3330m of elevation.

A perfect integration of the project with the natural landscape, the choices of materials combining stones, coatings worked by hand and woodwork with noble essences. The decoration is also finely designed to allow natural light to radiate in each room, each space is an invitation to relax and feel the wellbeing of the space.

RESORT: 300 DAYS OF BRIGHT SUNSHINE !

The Alpe d'Huez is situated on a fully south-facing plateau at 1860 m above sea level, and its skiable area enjoys maximum exposure to the sun. So enjoy a day's skiing in the sun: up to 7 1/2 hours a day of sun in December, up to 11 hours a day in April. The French Weather Bureau has recorded an average of 300 days' sunshine a year at the resort! Also, on a fine day, you can see 1/5e of France from Pic Blanc.

Since 1936, Alpe d'Huez has expanded at an altitude of 1860m on the southern flank of the Grandes Rousses Massif. Also called "The Island in the Sunshine", this resort enjoys long periods of sunshine (an average of 300 sunny days per year) and a particularly active microclimate. Only 1 hour away from Grenoble and less than 5 hours from Paris, Alpe d'Huez is a great play ground with varied activities to enjoy with your family and friends.

This special naming of "Lifestyle Resort" is justified by the resort's natural features and richness: The large number of skiing and non-skiing activities, the performance of the ski lifts, 4 itineraries with

2000 meters vertical drop... and runs such as the Sarenne, the longest run in the world with a length of 16 kilometers that guarantees a long-time skiing pleasure...

At an altitude of 1450m, overlooking the Sarenne gorge, lies Huez, offering the quaintness of a mountain village just kilometers away from an international mountain resort.

Thanks to the "Tele-village" cable car of Huez, you can easily visit the village.

Alpe d'Huez is the ideal place for lots of activities: sport (hiking, aerial, cycling, horse riding, ...) , cultural and relaxing, but it's also a resort with big events during the whole winter!

Alpe d'Huez was rewarded of European Best Ski Resort in 2019 and will welcome the famous TOMORROWLAND music festival for the 2nd time in March 2020
